**A PREBORN CHILD’S DEVELOPMENT**

**DAY 1** A unique life begins; the new human being has distinct DNA and genetic characteristics that will remain throughout his or her life.  

**DAY 18** The heart is formed and will begin to beat just a few days later.

**WEEK 5** Eyes, legs, and hands begin to develop.

**WEEK 6** Brain waves are detectable; fingers begin to form and the mouth and lips are present.

**WEEK 7** The child’s sex can be determined through a non-invasive maternal blood test.

**WEEK 8** Every organ system is in place; child’s race/ethnicity can be determined.

**WEEK 20** The baby can feel pain. Preborn children in Texas are protected from abortions at this point, except for those with disabilities.

---

**Abortion in Texas by the numbers**
