

Planned Parenthood Keystone

March 24 at 3:42 PM · 🌐

Donations Needed

In uncertain times like this, Planned Parenthood is as committed to patients as always. We will provide as many people as possible with the critical sexual health care they need to stay safe and healthy. In order to help us do this, please consider donating hand sanitizer, home sewn masks, shoe covers, and surgical hats to protect our medical staff as they continue to provide care in our communities.

To donate PPE, please visit our website:

...

As you probably are aware, there is an insufficient quantity of products like hand sanitizer, hand soap, and rubbing alcohol as well as personal protective equipment (PPE) such as masks and gloves.

While our staff is working tirelessly on securing more supplies, equipment distributors are all on backorder for the foreseeable future.

In an effort to keep our frontline staff and patients safe, we are reaching out to our supporters and the community in search of excess supplies that can be donated. If you can help us obtain additional resources, please reach out to us at info@ppkeystone.org.
